About the ISPN & the 2018 Meeting

Points for consideration:

- The ISPN is the most important organization of our profession!
Truly international, fantastic friendship hub!
- The ISPN leadership (see [here](#)) is extremely interested in further promoting international participation.
- The meeting in Tel Aviv, is the most important event of our international community, professionally & socially.
- October 7th, Sunday, will be a full day of “Updates in Pediatric Neurosurgery” provided by an esteemed faculty. A great opportunity for residents, young seniors and nurses.
On the same day, there will be a 4-5 hours course in IOM (Intra-operative neurophysiology).
- ISPN2018 is an opportunity to enjoy wonderful Tel-Aviv, and tour Israel, the holy land.
We encourage everybody to book flights, tours, hotels etc. as early as possible.
- Many traveling awards are available for young participants (follow the [website](#)).
